KINDERLAND

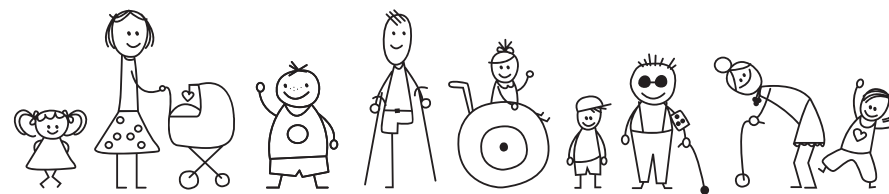

CHILD'S PLAY WITH A DIFFERENCE.

In the Emsland region, we develop and create imaginative playground equipment for everyone to enjoy. Our team of around 90 employees includes product designers and engineers, fitters and carpenters, technical and commercial staff. We enjoy developing and building small, well-thought-out playground equipment as much as we do designing, producing and installing a large leisure park or indoor facility.

Children love animals. We do too. That's why we have developed **PLAYABLE ANIMALS** made of wood that are second to none. Our animals transform any playground into a magical place. They allow children to immerse themselves in different worlds of fantasy.

All illustrations are design examples.

PLAYABLE ANIMALS

PLAYABLE ANIMALS

Kinderland's playable animals are extremely versatile. They can increase the quality of a visit to the city centre or set the mood at the entrance to the zoo. They can also be used to create themes for existing playgrounds and thus open up completely new worlds of experience.
